

March 27, 1974

CLERK: Mr. President, I move to advance 1054 to E & R Initial and to consider any further pending amendment on Select File. (Signed) Senator Carpenter.

PRESIDENT: Senator Carpenter. Senator Carpenter has the floor.

SENATOR CARPENTER: All it does. We move the bill over. We print whatever amendments are now pending that haven't been printed. We get it to E & R to get in that position. Put it on Select File, and then you are in the same position on Select File, as you are now. E & R has nothing to do... this might expedite it to that extent. So I so mov e.

PRESIDENT: The Chair's going to observe that in moving a bill we...this way first off the rules of the Legislature provide that this bill is in it's form here, that it can be amended and 25 votes is what is required to do this. There's two sections that refer to this. There's nothing in the rules that say that it can't be done. But the Chair is going to rule, that in order for it to be done, that 30 votes are required because that it would appear that it would require a suspension of the rules. So I am going to rule that it is going to take 30 votes for you to move this bill on over that way in order to bypass the amendments, and the procedure that is required according to the Chair and the rules. If you support that vote aye, if not vote no. The question is, if you want to move the bill on over. If you do, it takes 30 votes. All those in favor vote aye, all those opposed vote no. Have you all voted? Clerk will record. I get blamed for everything. How can one ruling cause all that trouble?

CLERK: 32 ayes, Mr. President on the motion to advance.

PRESIDENT: All right, the rules are suspended and the bill is moved on over.

CLERK: I have a series of motion pertaining thereto.

PRESIDENT: I'm sorry, I didn't hear you. You have some amendments.

CLERK: Mr. President, I now move to advance LB 1055, 1056, 1057, 1058, 1059, 1049, with all amendments being printed to E&R Initial.

PRESIDENT: All right, Senator Stull for what purpose do you rise?

SENATOR STULL: Mr. President, and members of the Legislature. I would move that we put these bill over for the same purpose that we advanced 1054. Now, we're operating under the same rules on Select File as we do on General File, and these are the bill that we are going to have to pass before we get out of here. Now these bills, we've got to get them taken care of, and as the way I count down about next Monday will be the last day we can advance bills off of General File. So I would ask for the question.

PRESIDENT: All right, Senator Stull, first off, the Chairs going to make it clear that you are going only move one bill at a time. Because I don't think it's proper to move the whole series. If you want to suspend the rules...
